

Long Distance RFID System

For Residential & Industrial use

The UHF RFID reader is an RFID long-range proximity card reader which can simultaneously read multiple passive UHF tags at ranges up to 8 mtr.

The reader is waterproof and is suitable for use in a wide range of RFID applications, such as transport management, vehicle management system, car parking system, production process control, and access control system.

- Read range up to 8 meters (adjustable).
- Read Sensitivity: Dual polarization read mode.
- Transmission Protocol - Wiegand 26-Bit / Wiegand 34-Bit
- Two working mode: Trigger read & Always read
- Operating Frequency 910 MHz
- Weatherproof (IP68)
- Maximum Cable Distance: 90 mtr.
