### Technical Specification

Environmental temperature	-20°C~+50°C
Power supply	220V, 50Hz
Motor speed	50rpm ; 16 cm/s
Rated Output power of Motor	450W
Protection Grade	IP 44
Operation control mode	Push Button
Output shaft height	58.5mm
Max. gate weight	Up to 2500Kg
Output torque	40N'm
Limit switch	Switch / Magnetic
Duty cycle	15 minutes
